

Minh Huynh

APPLICATION SUPPORT ANALYST · IT & TECHNICAL SUPPORT

☎ 971-331-1778 | ✉ huynhminhg2001@gmail.com | 📍 minhhuynh103 | 🌐 Minh Huynh

Summary

Application support analyst with 2+ years of multi-channel, ticket-based support experience across enterprise ITSM platforms (ServiceNow, TeamDynamix), resolving 50+ tickets per week for a community of tens of thousands. Strong in Windows troubleshooting, clear ticket documentation, and calm, precise customer communication under pressure. Work independently with minimal oversight, escalate accurately, and reduce dependency on senior engineers to keep operations stable. Currently pursuing an M.S. in Computer Science while seeking a client-facing application support role; eligible for OPT/CPT employment. Fluent in English and Vietnamese.

Support & ITSM: ServiceNow, TeamDynamix, ticket documentation, incident triage & escalation, remote/phone support
Systems: Windows OS troubleshooting, account & application support, Git, Adobe Creative Suite
Programming: C/C++, Python, JavaScript, HTML & CSS
Languages: English (fluent), Vietnamese (fluent)

Education

Oregon State University

• GPA: 3.5 / 4.0

Corvallis, OR

Expected Dec. 2027

Oregon State University

B.S. IN COMPUTER SCIENCE (HUMAN-COMPUTER INTERACTION)

• GPA: 3.5 / 4.0 · Four-year OSU Regional Award Scholarship, \$10,000/year

Corvallis, OR

Sep. 2019 – Dec. 2024

Work Experience

OSU IT Service Desk

IT TECHNICIAN FOR THE OSU COMMUNITY

Corvallis, OR

Dec. 2023 – Present

- Resolve 50+ Windows, account, and application support tickets per week by phone and remote session for a university community of tens of thousands, driving first-contact resolution wherever possible.
- Document clear, comprehensive tickets in enterprise ITSM platforms (ServiceNow, TeamDynamix), building a reliable knowledge trail that reduces dependency on senior engineers for recurring issues.
- Diagnose and resolve issues independently with minimal oversight, escalating urgent cases to the correct resources and following them through to resolution to keep operations stable.
- Communicate calmly and precisely under pressure, guiding non-technical users to surface accurate diagnostic information.

Technical Projects

NaturalPoint Inc. (OptiTrack) — Senior Capstone

ROS2 PLUGIN SYSTEM FOR MOTION CAPTURING JETMAX HIWONDER ROBOT (C++)

OSU Campus & OptiTrack

Sep. 2022 – Jun. 2023

- Built ROS2 packages (C++, Ubuntu 20.04) to control a Jetmax Hiwonder robot from Motive motion-capture data, meeting client positional-accuracy requirements.
- Delivered the completed system to OptiTrack for commercialization and manufacturing use.

Pencil2D Open Source Project

OPEN SOURCE SOFTWARE CONTRIBUTOR

Remote

Jun. 2023 – Aug. 2023

- Contributed independently to a 5,000+ member open-source project, coordinating directly with project admins with little oversight.
- Redesigned and improved the project's main landing page; changes reviewed, approved, and merged to the main branch in Jul. 2023.
- Delivered the complete Vietnamese localization of the software and forum, approved and shipped as the finished language section in Aug. 2023.

Sketch and Guess Online Game

WEB DEVELOPMENT FINAL PROJECT (JAVASCRIPT)

Hybrid & Remote

Sep. 2020 – Dec. 2020

- Designed the HTML/CSS interface and built a real-time chat system in JavaScript for a team-developed online drawing game, collaborating remotely via GitHub.
